	(英文) A Historical and Comparative Perspective on Various Phases of Contemporary Japanese Marriage
Panel summary	<p>What special features does marriage in modern Japan have when examined in the context of its 300-year history? How does it appear compared to other modern East Asian countries? The first report will clarify the modern traits of Japanese marriage while focusing on historical development. The second report will use international marriage as an example of the features of modern-day marriage, and consider specifically Japanese traits through a comparison of Japan, the Republic of Korea, and Taiwan.</p>
