

Empowered Research Online Workshop Series

1 Grant Writing

Find the best grants!
Write a great application!

This workshop will help early-career researchers locate and apply for suitable grants, with a focus on Horizon 2020, the EU Framework Programme for Research and Innovation. Participants will learn how to identify opportunities, fully develop ideas and write effective applications. Highlights include testimonies by past grantees who will demonstrate proven success strategies.

Empowered Research is a new collaborative initiative by EURAXESS Japan and JST to promote gender equality, designed to foster EU-Japan research links and mobilize early-career research talent. Upcoming workshops in the three-part series include 'Cross-cultural Communication' and 'Presentation Skills'.
