1. Did the conference meet your expectations? Yes No
会議は期待していた内容でしたか。 はい いいえ

2. What did you learn from the conference?

会議から何を学びましたか。

We have learned from each school's students, and it's a vast way to rethought COVID-19 from them. In this meeting, I pick up to be practical and empathetic toward obstacles—for example, safe areas of building for domestic violence women or knowing how other cases we never considered before.

3. What questions were you left with after the conference?

会議が終わった現在、疑問等を抱いていますか。

Would this pandemic end sooner if everyone concerns and be careful about this like we all?

4. What action will you take to help make your community safer?

あなたは、コミュニティーの安全のために、これから何をしますか。

I want to pass down the information I have to them. What we got may not be 100 percent correct, but that's why we need to talk about them and try to discuss it not only with ourselves.

5. How did you feel during the conference?

本会議中に、どんなふうに感じましたか。

I felt the bond between all the people while unique because it is something that you cannot always have with others. Only when we all care and respect for it then would we feel it out loud.

6. What did you like about the conference?

会議の良かった点をお聞かせください。

Freely share your thought on specific issues while also learn more about them through discussion.

7. What did you dislike about the conference?

会議で良くないと思った点があったらお聞かせください。

It's a bit too short to get in touch with all the participates. I thought about what way could be better for an online course like it.

8. If we do it again, what should we change? What should we keep the same?

次回開催するとしたら、何か改善点はありますか。残すといいなと思う点がありますか。

The group discussion is always the best part for me, for we could have more chance to hear individual' opinion directly. But it's a bit of pity that we couldn't hear more voices from the professor's side this time.

9. If you have other comments, please feel free to write them here.

他にご意見があれば、お聞かせください。

Please return this by 28 February 2021 to the person responsible in your country/institution. Thank you.
